## Food and Nutrition

At Waihi East School, we promote a healthy lifestyle to our school community (students, staff, and families/whānau) as part of our commitment to a safe and inclusive school environment. Educating students about nutrition and encouraging healthy active learning contributes to their personal success and wellbeing, and to a healthier community for everyone. We communicate our nutrition messages to the wider school community clearly and consistently in various ways.

Our school follows **food safety** guidelines.

### Promoting a healthy food and drink environment

A healthy food and drink environment helps support a young person's wellbeing/hauora, including their immediate physical and mental growth and development. It also helps establish positive behaviours for the future. Good nutrition can positively affect student behaviour, learning, concentration, and energy.

At Waihi East School, we:

- ensure that any food or drink provided by/through the school (e.g. in class or sold at school) aligns with national food and nutrition guidelines, such as **Healthy Food and Drink Guidance – Schools** 
- incorporate nutrition education across the curriculum, including the health programme
- encourage staff to model healthy food and drink choices
- provide nutrition messages and food that acknowledges the diversity of our community and considers those with special dietary needs (e.g. allergies and intolerances, and religious, cultural, and ethical food requirements)
- consider our nutrition messages when deciding on food provided by the school (e.g. class rewards and celebrations, student prizes, special events, fundraising activities, and school camp menus)
- actively promote physical activity as the partner of good nutrition
- encourage students taking part in physical activity to drink water for hydration and to refuel with healthy snacks.
